Interactive Webinar

The Dangers of Sex and Pornography Addiction

Description: A great deal of psychological research has been conducted in the past decade that can help us understand the dangers of sex and pornography addiction. You may have been horrified to read in a news headline about a frightening percentage of children ages 8-16 that have seen pornography on the internet. You may also be aware that sexual addiction and pornography addiction have become well-known detrimental issues for adults, negatively impacting relationships, employment, and other aspects of a person's life and ability to function.

In this webinar we will explore key aspects of addiction, with a focus on sex and pornography addiction, the harms caused by these addictions and a review of prevention strategies and paths for treatment and recovery. These are sensitive issues, and this candid webinar is intended for an adult audience.

Date: Saturday, February 20, 2021 **or** Saturday, March 06, 2021
1:00 pm – 3:00 pm Eastern Time (ET)

Participant Limit: 100

Fee: \$25.00
